SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Level 1	Level 1	Level 1

M8.0 Earthquake, Solomon Islands

On 12/08/16 at 0938 hours, a verified 8.0 magnitude earthquake (EQ) occurred near Kira Kira, in the Solomon Islands.

- The National Tsunami Warning Center (NTWC) is analyzing the event to determine the level of danger.
- The CSWC is making notifications per SOP and will continue to monitor the situation and provide updates.

Cal OES COASTAL REGION

Earthquake, 6.5 Magnitude, Humboldt County, 101 miles W of Petrolia

On 12/08/16 at 0650 hours, a verified 6.9 magnitude earthquake (EQ) occurred 101 miles off the coast of Humboldt County, at depth of 6.2 miles. The earthquake was later downgraded to a M6.5. At 0832 hours, a second EQ occurred in the same general area, which verified at M5.0.

- The National Tsunami Warning Center (NTWC) issued Tsunami Information Statements for each EQ, advising that there was no Tsunami Danger for California or the West Coast.
- The California State Warning Center (CSWC) contacted all California coastal and delta counties to advise; Del Norte County reported that the EQ was felt, but that there were no reports of damage or injuries.
- The CSWC made notifications per SOP and will continue to monitor the situation and provide updates as warranted.
- Cal OES Coastal Duty Officer (CDO) coordinated a conference call at 0800 hours with Del Norte, Humboldt, and Mendocino Operational Areas (OAs).
 - Del Norte OA reported several calls to the Public Safety Answering Points (PSAPs) advising that the EQ was felt.
 - Humboldt and Mendocino OAs advised they had a minimal amount of phone calls.
 - All three OAs advised the volume of calls received were mainly due to media inquiries.
- Per the Cal OES EQTP Duty Officer (EQTP DO):
 - This event was well off shore – on the edge of the California / USGS area of reporting responsibility, placing it in the National Earthquake Information Center (NEIC) reporting responsibility.

SITUATION SUMMARY

Oakland Warehouse Fire, Oakland, Alameda County (Final)

On 12/02/16 at 2324 hours, a fire occurred in a warehouse during a RAVE party in Oakland.

- Unified Command was set up at the Incident Command Post (ICP) with Oakland Police (OPD), Oakland Fire (OFD), Alcohol Tobacco and Firearms (ATF), and Alameda County Sheriff's Office (ACSO).
- ACSO is reporting 36 fatalities with 100% of the building searched.
- 36 victims have been positively identified and 35 next of kin have been notified.
- 26 names were released to the public and a 27th name was withheld due to the victim being a minor.
- ACSO is developing a protocol for handling those reported missing that are now considered "outside" of this incident.
- There are confirmed foreign victims from Finland, Korea, and Guatemala. The Department of State, Office of Foreign Missions was put in contact with the Alameda County Coroner to ensure Consulates were notified.

Activations

- The Oakland Emergency Operations Center (EOC) has deactivated.

Shelters

- The Family Assistance Center at the Alameda County Building, 2425 E. 12th Street, Oakland closed as of 2000 hours on 12/07/16.

Proclamation

The City of Oakland has proclaimed a local emergency due to the Oakland Warehouse Fire.

- The City has requested a Cal OES Director's Concurrence, a Governor's Proclamation, and a Presidential Declaration of a State of Emergency.
- The City has requested funding and disaster assistance through the California Disaster Assistance Act and State Private Nonprofit Organizations Assistance Program.

Cal OES INLAND REGION

- Nothing Significant to Report.

Cal OES SOUTHERN REGION

- Nothing Significant to Report.

WEATHER OF CONCERN

Weather of Concern

- Wet pattern will continue for several days ahead as waves of energy in the atmosphere bring several bouts of rain to the North Coast as well as the majority of Northern California
- The San Francisco North Bay and coastal ranges will see the large rainfall totals due to unsettled weather conditions and periods of rain
- The Sierras and colder Central Valley locations will continue to see heavy precipitation including periods of freezing rain

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php

Key Points

12/08 – 12/15

Thursday-Saturday

- A series of wet storm systems will move through Northern CA and Northern Sierra this week with a prolonged period of wet and rainy weather. *Biggest impact will be to travel/road conditions as a rare freezing rain/ice/sleet scenario is likely early Thursday morning during commute.*
- Winds will also be strong and gusty at times, possibly impacting travel conditions, across far Northern CA.

Sunday-Monday

- A brief break in weather system is expected with no significant weather or water impacts.

Tuesday-Wednesday

- More precipitation expected across Northern CA next week with valley rain and mountain snow.

California OES Impact Threat Matrix

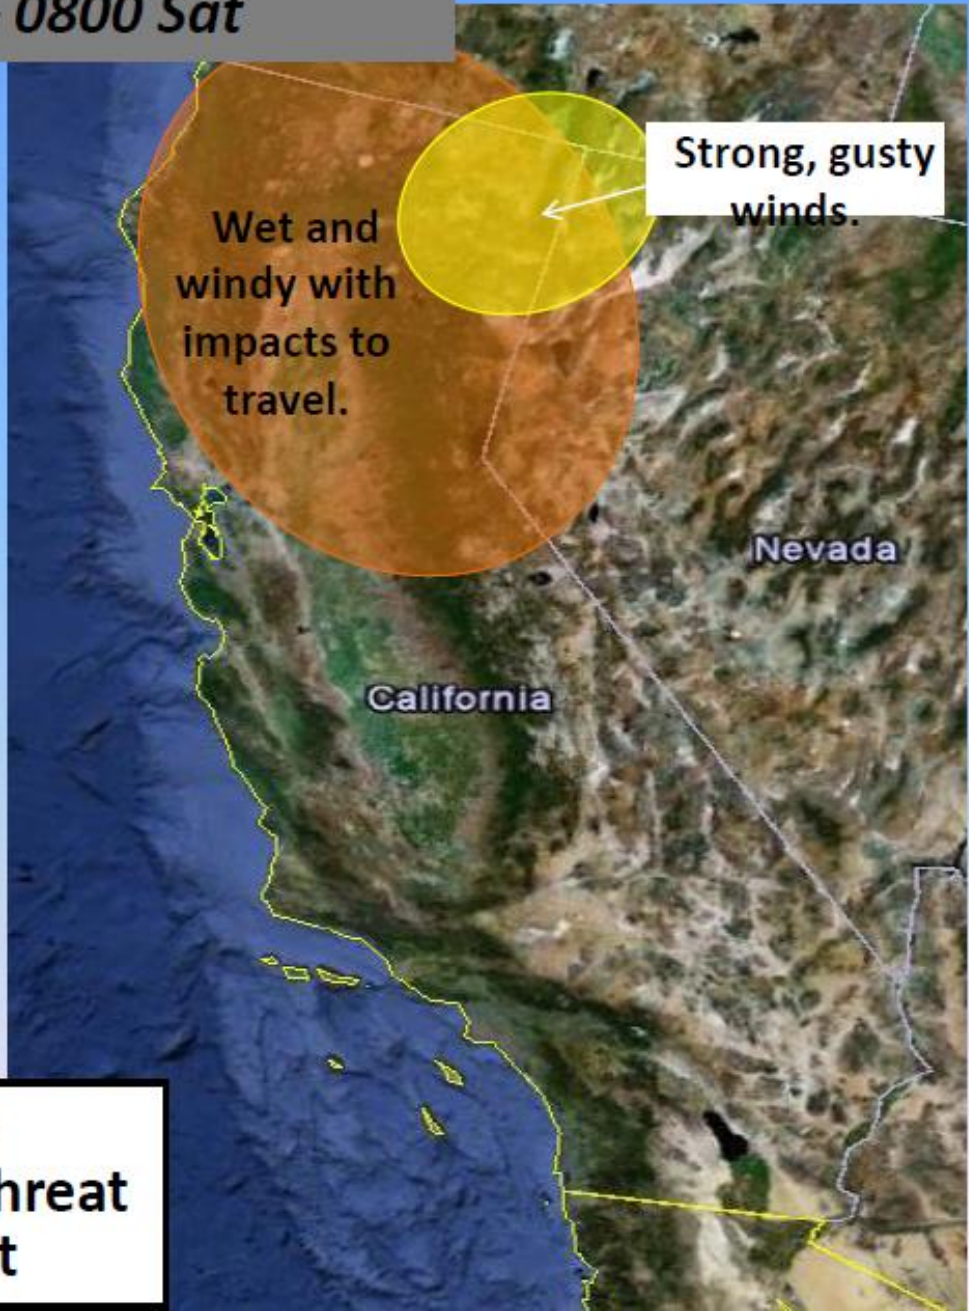

Dec 8, 2016 – Dec 15, 2016

Fire Weather							
Winds	N. CA	N.Ca					
Extreme Cold							
Snow	Nrn Sierra	Nrn Sierra	Nrn Sierra			N. CA	N.CA
Heavy Rain	Nrn Sierra	Nrn Sierra	Nrn Sierra			N. CA	N.CA
River Flooding							
Severe Weather							
Debris Flow/Flash Flooding							
Freezing Rain/Ice	N. CA	N.Ca					

	High Threat
	Moderate Threat
	Slight Threat
	No Discernible Threat

Day 1-2 Weather Hazards
Valid: 0800 Thu – 0800 Sat

-  High Threat
-  Moderate Threat
-  Slight Threat

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

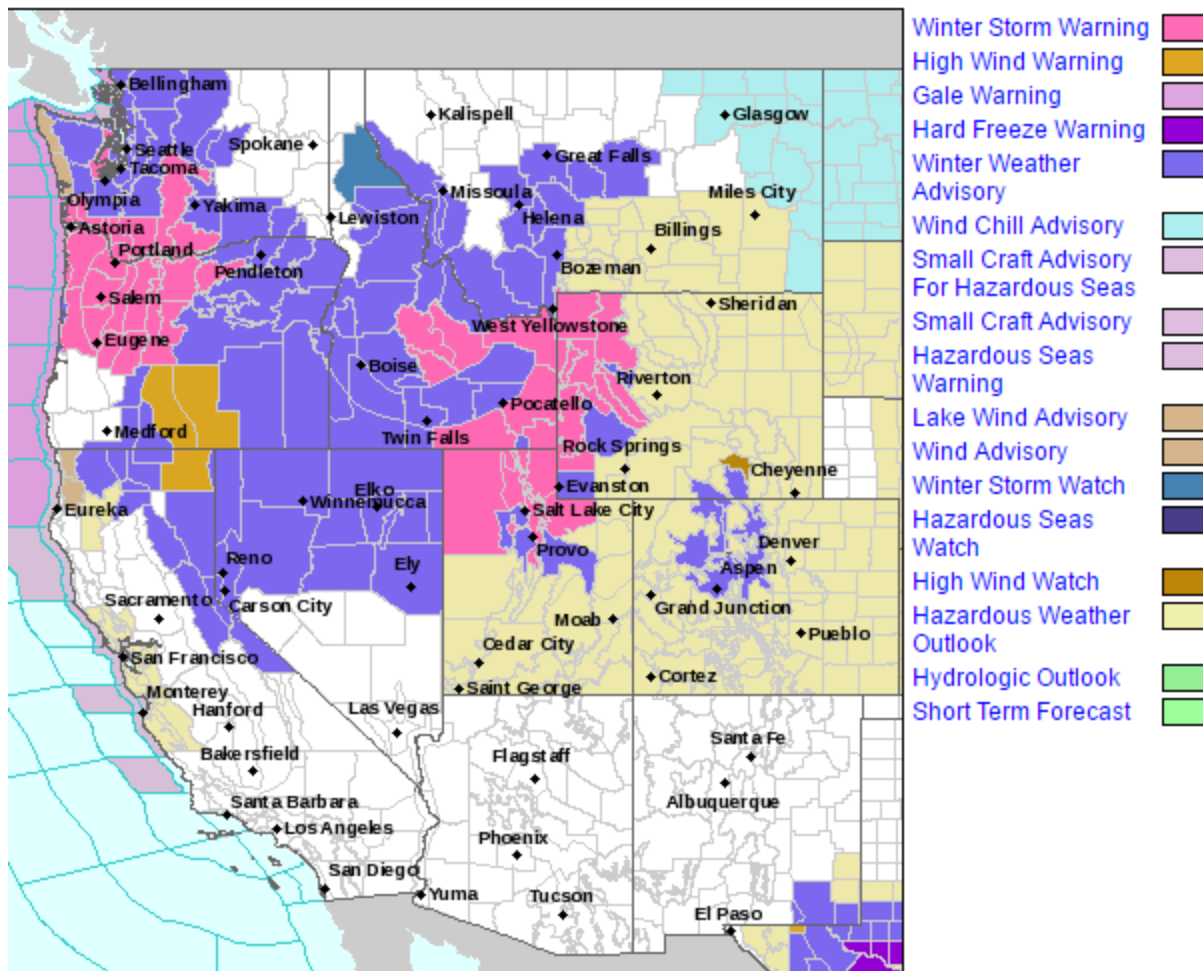

While there continues to be quite a bit of uncertainty about the timing and strength of any weather systems that will move through Northern California during the next 7 days, the end result will be moist conditions for the Geographic Area in spite of that. The weather system that arrived late Wednesday was already well on its way eastward by this morning (Thursday). Snow levels were quite low overnight, but have already begun to rise. However, not all of the mountain valley areas have seen the cold air leave and this will keep up a chance of either freezing rain or snow early this morning in those cold locations. Areas of gusty South to West winds are also expected today over the mountains, then become a bit more widespread Friday. It appears showery conditions will continue into the weekend, but there may be a significant break between systems Sunday when it will be rather dry. Another series of weather systems is expected to return early next week. Snow levels will be on the rise today and pretty much stay no lower than 5000 feet in the north and 6500 feet in the south after today.

SOUTHERN CALIFORNIA

Zonal flow will bring showers to Central California at times through the middle of next week. Most locations from a Monterey/Fresno County line northward will receive 1 to 4 inches of rainfall, while less than an inch of rainfall is expected to the south of this line through the middle of next week. The snow level will be between 8,000 and 9,000 feet across the Sierra. Little or no rainfall is expected across Southern California through the middle of next week. Westerly winds of 20 to 30 mph with gusts to 50 mph will surface across the mountain ridges and desert passes Friday afternoon through the middle of next week. Maximum temperatures will be near normal through the middle of next week, with mid 40s to mid 50s across the mountains and 60s to low 70s in the valleys. Minimum humidity will be above 30% through the middle of next week.
